Education

UQAT: Université du Québec en Abitibi-Témiscamingue
Bachelor's Degree: Video game creation - Software Integration
2021-2023

UQAT offers an education focused on practice in industry. I learn to work in several projects with large teams in a professional way.

Collège de Maisonneuve - D.E.C. Multimedia Integration
2017-2020

Technique where I mainly learned programming, but also Maya, Photoshop, graphic design, cinema etc. I finished with an average of 92% in my 3 game development courses.

Work experience

Internship at NovaScience
2022

I am an integrator in a team made up of an artist and a designer. My task is to fully program three VR games, for college students in biology, chemistry and physics.
